

Career Roles & Roadmaps — 30+ Roles

A practical guide: skills, roadmaps, companies, salary ranges, and recommended courses

Note: Salary ranges and company lists are approximate and should be verified for current accuracy.

1. MERN Stack Developer — IT - Web Development

1) Skills (Technical & Soft):

Technical: JavaScript (ES6+), Node.js, Express.js, MongoDB, React, HTML/CSS, REST APIs, Git
Soft: Problem solving, Team collaboration, Communication, Debugging

2) Roadmap for freshers:

1. Learn JavaScript fundamentals
2. Master Node.js & Express
3. Learn MongoDB and Mongoose
4. Learn React and state management
5. Build full-stack projects (CRUD apps, auth)
6. Deploy to cloud (Heroku/Vercel)
7. Prepare portfolio & interview questions

3) Example Companies & Salary Range (approx):

Companies: TCS, Infosys, Wipro, Cognizant, Freshworks, startups, product companies (e.g., BrowserStack, Postman)

Salary (approx): India: ■3–10 LPA (entry to mid). Global (US): \$60k–\$120k

4) Recommended Courses / Learning Resources:

- Coursera: Full-Stack Web Development with React (by Hong Kong U) - comprehensive React & Node path
- Udemy: MERN Stack Bootcamp - hands-on full stack projects
- freeCodeCamp: Full Stack Developer curriculum - practical projects and exercises

2. Full Stack Engineer — IT - Web/Software

1) Skills (Technical & Soft):

Technical: Frontend frameworks (React/Angular/Vue), Backend (Node/Python/Java), Databases (SQL/NoSQL), API de Authentication, CI/CD

Soft: System design thinking, Communication, Ownership, Testing mindset

2) Roadmap for freshers:

1. Master one frontend framework
2. Learn one backend language + frameworks
3. Understand databases and caching
4. Build end-to-end projects
5. Learn deployment and CI/CD
6. Practice system design basics

3) Example Companies & Salary Range (approx):

Companies: Google, Amazon, Microsoft, startups, SaaS companies

Salary (approx): India: ■6–20 LPA. US: \$80k–\$160k

4) Recommended Courses / Learning Resources:

- Coursera: Full-Stack Web Development Specialization
- Pluralsight: Full Stack paths
- edX: Professional Certificate programs in web development

3. Data Scientist — IT - Data

1) Skills (Technical & Soft):

Technical: Python (Pandas, NumPy), Statistics, Machine Learning (scikit-learn), Data visualization (Matplotlib/Seaborn), SQL, Model evaluation

Soft: Curiosity, Problem framing, Communication, Domain understanding

2) Roadmap for freshers:

1. Learn Python & statistics
2. Master data wrangling with Pandas
3. Learn ML algorithms
4. Do end-to-end projects (EDA→model→deployment)
5. Learn SQL and dashboarding
6. Prepare portfolio and Kaggle projects

3) Example Companies & Salary Range (approx):

Companies: Google, Amazon, Flipkart, Accenture, startups, analytics firms

Salary (approx): India: ₹6–25 LPA. US: \$90k–\$170k

4) Recommended Courses / Learning Resources:

- Coursera: IBM Data Science Professional Certificate
- edX: MicroMasters in Data Science
- fast.ai: Practical deep learning courses

4. Data Analyst — IT - Data

1) Skills (Technical & Soft):

Technical: SQL, Excel, Python (Pandas), Data visualization (Power BI/Tableau), Basic statistics
Soft: Analytical thinking, Storytelling with data, Attention to detail, Communication

2) Roadmap for freshers:

1. Master Excel & SQL
2. Learn data cleaning with Python
3. Learn a BI tool (Power BI/Tableau)
4. Build dashboards and reporting projects
5. Practice case studies and interview questions

3) Example Companies & Salary Range (approx):

Companies: Consulting firms, product companies, startups, banks
Salary (approx): India: ■3–8 LPA. US: \$50k–\$90k

4) Recommended Courses / Learning Resources:

- Coursera: Google Data Analytics Professional Certificate
- Udemy: SQL for Data Analysis
- LinkedIn Learning: Tableau/Power BI courses

5. System Analyst — IT - Systems

1) Skills (Technical & Soft):

Technical: Systems thinking, Requirement analysis, UML/Diagrams, Basic SQL, Understanding of software lifecycle
Soft: Communication, Stakeholder management, Analytical skills, Documentation

2) Roadmap for freshers:

1. Learn software development lifecycle
2. Practice requirement gathering techniques
3. Study UML and process modeling
4. Get domain knowledge in chosen industry
5. Work on internship or BA tasks

3) Example Companies & Salary Range (approx):

Companies: Banks, ERP vendors, consulting firms (Deloitte, Capgemini)
Salary (approx): India: ■4–12 LPA. US: \$60k–\$110k

4) Recommended Courses / Learning Resources:

- Coursera: Business Analysis & Process Management
- edX: IT System Analysis short programs
- Udemy: Business Analysis Fundamentals

6. Product Manager — Non-IT/IT - Product

1) Skills (Technical & Soft):

Technical: Basic tech literacy, Data interpretation, Roadmapping tools (Jira)

Soft: Communication, Stakeholder management, Prioritization, Vision & strategy, User empathy

2) Roadmap for freshers:

1. Understand product lifecycle
2. Learn basics of UX and analytics
3. Work on small product projects or internships
4. Study roadmap & prioritization techniques
5. Build a portfolio of product case studies

3) Example Companies & Salary Range (approx):

Companies: Product companies (Google, Microsoft), startups, SaaS companies

Salary (approx): India: ₹8–30 LPA. US: \$100k–\$180k

4) Recommended Courses / Learning Resources:

- Coursera: Digital Product Management Specialization
- Udacity: Product Manager Nanodegree
- edX: Product Management programs

7. DevOps Engineer — IT - Infrastructure

1) Skills (Technical & Soft):

Technical: Linux, CI/CD (Jenkins/GitHub Actions), Containerization (Docker/Kubernetes), Cloud basics (AWS/Azure/GCP), Infrastructure as Code (Terraform)

Soft: Collaboration, Reliability mindset, Scripting, Monitoring

2) Roadmap for freshers:

1. Learn Linux & scripting
2. Learn Git & CI/CD
3. Master Docker and basics of Kubernetes
4. Learn cloud services and deploy pipelines
5. Focus on monitoring and reliability

3) Example Companies & Salary Range (approx):

Companies: Cloud providers, SaaS companies, large enterprises

Salary (approx): India: ₹5–20 LPA. US: \$80k–\$150k

4) Recommended Courses / Learning Resources:

- Coursera: DevOps Professional courses
- Udemy: Docker & Kubernetes bootcamps
- ACloudGuru: Cloud DevOps learning paths

8. Cybersecurity Analyst — IT - Security

1) Skills (Technical & Soft):

Technical: Network security, SIEM tools, Incident response, Linux, Security fundamentals (OWASP)
Soft: Attention to detail, Forensics mindset, Communication

2) Roadmap for freshers:

1. Learn networking basics
2. Study security fundamentals
3. Practice with labs (TryHackMe, HackTheBox)
4. Get entry certs (CompTIA Security+, CEH)
5. Apply for SOC/analyst roles

3) Example Companies & Salary Range (approx):

Companies: Security firms, banks, government agencies, product companies
Salary (approx): India: ■4–18 LPA. US: \$70k–\$140k

4) Recommended Courses / Learning Resources:

- Coursera: IBM Cybersecurity Analyst Professional Certificate
- TryHackMe: Hands-on security learning paths
- Udemy: Practical ethical hacking courses

9. QA Engineer (Manual/Automation) — IT - Testing

1) Skills (Technical & Soft):

Technical: Test case design, Bug reporting, Automation basics (Selenium, PyTest), SQL for validation
Soft: Attention to detail, Analytical skills, Communication

2) Roadmap for freshers:

1. Learn SDLC & testing fundamentals
2. Practice writing test cases
3. Learn one automation tool
4. Participate in QA workflows
5. Build a portfolio of bug reports/test plans

3) Example Companies & Salary Range (approx):

Companies: Product companies, startups, QA consultancies
Salary (approx): India: ■3–8 LPA. US: \$50k–\$100k

4) Recommended Courses / Learning Resources:

- Udemy: Selenium WebDriver with Java/Python
- Coursera: Software Testing and Automation Specialization
- LinkedIn Learning: Testing Fundamentals

10. Cloud Engineer — IT - Cloud

1) Skills (Technical & Soft):

Technical: Cloud fundamentals (AWS/Azure/GCP), Networking, Security, IaC (Terraform), Containers
Soft: Problem solving, Cost-awareness, Collaboration

2) Roadmap for freshers:

1. Understand cloud basics
2. Get a cloud associate cert (AWS/Azure)
3. Learn IaC and automation
4. Deploy applications and manage cost/performance

3) Example Companies & Salary Range (approx):

Companies: Cloud providers, SaaS, enterprises
Salary (approx): India: ₹6–22 LPA. US: \$90k–\$160k

4) Recommended Courses / Learning Resources:

- ACloudGuru: Cloud learning paths
- Coursera: Google Cloud or AWS specialization
- Udemy: AWS Certified Solutions Architect prep

11. UI/UX Designer — Design

1) Skills (Technical & Soft):

Technical: Wireframing (Figma), User research, Prototyping, Visual design basics, Design systems
Soft: Empathy, Communication, Problem solving, Presentation

2) Roadmap for freshers:

1. Learn design fundamentals
2. Master Figma/Sketch
3. Do user research projects
4. Build a portfolio of UI prototypes
5. Intern at design teams

3) Example Companies & Salary Range (approx):

Companies: Product companies, agencies, startups
Salary (approx): India: ₹3–12 LPA. US: \$60k–\$120k

4) Recommended Courses / Learning Resources:

- Coursera: UI/UX Design Specialization
- Interaction Design Foundation: UX courses
- Udemy: Figma & UX bootcamps

12. Mobile App Developer (Android/iOS) — IT - Mobile

1) Skills (Technical & Soft):

Technical: Kotlin/Java (Android) or Swift (iOS), React Native/Flutter for cross-platform, APIs, UI/UX basics, Testing
Soft: Problem solving, Design sensitivity, Communication

2) Roadmap for freshers:

1. Learn platform basics (Kotlin/Swift) or Flutter/React Native
2. Build apps with REST APIs
3. Publish an app to Play Store/App Store
4. Practice debugging & performance

3) Example Companies & Salary Range (approx):

Companies: Mobile-first startups, product companies, agencies
Salary (approx): India: ■4–15 LPA. US: \$70k–\$140k

4) Recommended Courses / Learning Resources:

- Udemy: Android & iOS development courses
- Coursera: Flutter development specialization
- Codecademy: Mobile development paths

13. Business Analyst — Business/IT

1) Skills (Technical & Soft):

Technical: Excel, SQL (basic), Process modeling, Requirements documentation
Soft: Communication, Stakeholder management, Analytical thinking

2) Roadmap for freshers:

1. Learn BA fundamentals
2. Practice requirement gathering
3. Use tools (Jira, Confluence)
4. Work on domain projects or internships

3) Example Companies & Salary Range (approx):

Companies: Consulting firms, banks, product companies
Salary (approx): India: ₹4–12 LPA. US: \$60k–\$110k

4) Recommended Courses / Learning Resources:

- Coursera: Business Analysis & Process Management
- Udemy: Business Analyst practical courses

14. Technical Support Engineer — IT - Support

1) Skills (Technical & Soft):

Technical: OS troubleshooting, Networking basics, Ticketing systems, Basic scripting
Soft: Patience, Communication, Problem solving

2) Roadmap for freshers:

1. Understand OS & networking basics
2. Practice troubleshooting
3. Get support experience (internship/helpdesk)
4. Move to specialist roles

3) Example Companies & Salary Range (approx):

Companies: IT services, SaaS companies, BPOs
Salary (approx): India: ■2.5–6 LPA. US: \$40k–\$70k

4) Recommended Courses / Learning Resources:

- Coursera: IT Support Professional Certificate (Google)
- LinkedIn Learning: Helpdesk fundamentals

15. ERP Consultant (SAP/Oracle) — Enterprise Software

1) Skills (Technical & Soft):

Technical: ERP module knowledge (Finance/HR/Supply), Business process understanding, Configuration skills
Soft: Consulting mindset, Communication, Domain knowledge

2) Roadmap for freshers:

1. Learn ERP fundamentals
2. Specialize in a module (Finance/HR)
3. Get product certifications
4. Work on implementation projects

3) Example Companies & Salary Range (approx):

Companies: ERP vendors, consultancies (Accenture, Deloitte)
Salary (approx): India: ₹6–25 LPA. US: \$80k–\$150k

4) Recommended Courses / Learning Resources:

- SAP Training: Official SAP certification paths
- Udemy: Oracle/ERP intro courses

16. Network Engineer — IT - Networking

1) Skills (Technical & Soft):

Technical: TCP/IP, Routing & Switching, Cisco device config, Network security
Soft: Analytical thinking, Troubleshooting, Documentation

2) Roadmap for freshers:

1. Learn networking fundamentals
2. Practice with lab simulators
3. Get CCNA/CCNP certifications
4. Work in network operations

3) Example Companies & Salary Range (approx):

Companies: Telecoms, enterprises, networking firms
Salary (approx): India: ₹3–12 LPA. US: \$60k–\$120k

4) Recommended Courses / Learning Resources:

- Cisco: CCNA/CCNP training
- Udemy: Networking fundamentals

17. AI/ML Engineer — IT - AI

1) Skills (Technical & Soft):

Technical: Machine learning algorithms, Deep learning frameworks (TensorFlow/PyTorch), Python, Math & statistics
Soft: Research mindset, Problem solving, Communication

2) Roadmap for freshers:

1. Strong math & programming foundations
2. Learn ML algorithms and frameworks
3. Do projects and deploy models
4. Participate in competitions and internships

3) Example Companies & Salary Range (approx):

Companies: AI startups, big tech (Google, Meta), research labs
Salary (approx): India: ₹8–30 LPA. US: \$110k–\$200k

4) Recommended Courses / Learning Resources:

- Coursera: Deep Learning Specialization (Andrew Ng)
- fast.ai: Practical deep learning for coders
- edX: MicroMasters in AI

18. Research Scientist (CS/AI) — Research

1) Skills (Technical & Soft):

Technical: Strong math/statistics, Research methodology, Publishing skills, Deep learning/ML
Soft: Curiosity, Writing and presentation, Collaboration

2) Roadmap for freshers:

1. Strong CS/Math fundamentals
2. Pursue advanced degrees or research internships
3. Publish papers
4. Work in research labs

3) Example Companies & Salary Range (approx):

Companies: Research labs, tech giants (Google Research, Microsoft Research)
Salary (approx): India: ₹10–40 LPA (varies). US: \$120k–\$250k+

4) Recommended Courses / Learning Resources:

- edX: Advanced AI/ML programs
- Coursera: Research methods & specializations

19. Cloud Architect — IT - Cloud

1) Skills (Technical & Soft):

Technical: Cloud services design, Networking, Security, Cost optimization, IaC
Soft: Architectural thinking, Leadership, Communication

2) Roadmap for freshers:

1. Start as cloud engineer or devops
2. Gain multi-cloud expertise
3. Learn architecture patterns
4. Obtain cloud architect certs

3) Example Companies & Salary Range (approx):

Companies: Large enterprises, cloud consultancies
Salary (approx): India: ₹12–40 LPA. US: \$130k–\$220k

4) Recommended Courses / Learning Resources:

- Coursera: Cloud Architecture specializations
- ACloudGuru: Architect learning paths

20. Blockchain Developer — IT - Blockchain

1) Skills (Technical & Soft):

Technical: Solidity/Smart contracts, Cryptography basics, Web3 stacks, Node.js, Rust (optional)
Soft: Security mindset, Problem solving, Collaboration

2) Roadmap for freshers:

1. Learn blockchain fundamentals
2. Study smart contract development
3. Build DApps and deploy on testnets
4. Contribute to open source projects

3) Example Companies & Salary Range (approx):

Companies: Blockchain startups, crypto exchanges, fintechs
Salary (approx): India: ₹6–30 LPA. US: \$90k–\$180k

4) Recommended Courses / Learning Resources:

- Coursera: Blockchain specializations
- Udemy: Ethereum & Solidity courses
- edX: Blockchain programs

21. Site Reliability Engineer (SRE) — IT - Reliability

1) Skills (Technical & Soft):

Technical: Linux, Monitoring (Prometheus), Scripting, Kubernetes, Incident response
Soft: Calm under pressure, Problem solving, Collaboration

2) Roadmap for freshers:

1. Learn systems and networking
2. Work in ops/devops roles
3. Master monitoring and incident handling
4. Implement SLIs/SLOs

3) Example Companies & Salary Range (approx):

Companies: Google, Netflix, large SaaS companies
Salary (approx): India: ₹8–30 LPA. US: \$110k–\$200k

4) Recommended Courses / Learning Resources:

- Coursera: Site Reliability Engineering courses
- Udemy: SRE & monitoring courses

22. Technical Writer — Non-IT/IT

1) Skills (Technical & Soft):

Technical: Understanding of technical topics, Writing clarity, Docs tools (Markdown), API documentation
Soft: Communication, Empathy, Attention to detail

2) Roadmap for freshers:

1. Practice writing technical docs
2. Learn tools (Markdown, GitBook)
3. Contribute to open-source docs
4. Build a writing portfolio

3) Example Companies & Salary Range (approx):

Companies: Product companies, developer tool companies, consultancies
Salary (approx): India: ₹3–12 LPA. US: \$50k–\$110k

4) Recommended Courses / Learning Resources:

- Coursera: Technical Writing courses
- Udemy: API documentation courses

23. Digital Marketing Specialist — Non-IT/IT - Marketing

1) Skills (Technical & Soft):

Technical: SEO basics, Content marketing, Analytics (Google Analytics), PPC basics, Social media tools
Soft: Creativity, Communication, Analytical thinking

2) Roadmap for freshers:

1. Learn fundamentals of SEO & content
2. Practice with small campaigns
3. Gain analytics skills
4. Build a portfolio of campaigns

3) Example Companies & Salary Range (approx):

Companies: Agencies, startups, product companies
Salary (approx): India: ■2.5–10 LPA. US: \$50k–\$100k

4) Recommended Courses / Learning Resources:

- Coursera: Digital Marketing Specialization
- Google: Digital Garage / Analytics courses
- Udemy: SEO & marketing bootcamps

24. Sales Engineer / Pre-sales — Non-IT/IT - Sales

1) Skills (Technical & Soft):

Technical: Product knowledge, Demos, Basic technical skills, CRM tools
Soft: Communication, Persuasion, Customer empathy

2) Roadmap for freshers:

1. Understand product & technical basics
2. Practice demos and client interactions
3. Work with sales teams
4. Build domain expertise

3) Example Companies & Salary Range (approx):

Companies: SaaS companies, enterprise software vendors
Salary (approx): India: ₹4–20 LPA. US: \$70k–\$150k

4) Recommended Courses / Learning Resources:

- Coursera: Sales and negotiation courses
- Udemy: Pre-sales and demo skills

25. HR / Talent Acquisition (Tech Recruiter) — Non-IT - HR

1) Skills (Technical & Soft):

Technical: Applicant tracking systems, Sourcing techniques, Basic screening
Soft: Communication, Assessment, Negotiation

2) Roadmap for freshers:

1. Learn sourcing & screening techniques
2. Practice interviewing
3. Understand tech roles basics
4. Gain experience with internships

3) Example Companies & Salary Range (approx):

Companies: Recruitment firms, startups, large companies
Salary (approx): India: ■2.5–10 LPA. US: \$45k–\$100k

4) Recommended Courses / Learning Resources:

- Coursera: Recruiting & Hiring courses
- LinkedIn Learning: Talent acquisition fundamentals

26. Content Strategist / Copywriter — Non-IT - Content

1) Skills (Technical & Soft):

Technical: Content planning tools, SEO basics, Analytics
Soft: Writing, Storytelling, Research

2) Roadmap for freshers:

1. Practice writing regularly
2. Build content portfolio
3. Learn SEO & analytics
4. Intern with agencies

3) Example Companies & Salary Range (approx):

Companies: Marketing agencies, product companies, startups
Salary (approx): India: ■2.5–10 LPA. US: \$50k–\$100k

4) Recommended Courses / Learning Resources:

- Coursera: Content Strategy courses
- Udemy: Copywriting courses

27. Graphic Designer — Design

1) Skills (Technical & Soft):

Technical: Adobe Suite / Figma, Layout & typography, Color theory
Soft: Creativity, Communication, Client handling

2) Roadmap for freshers:

1. Learn design fundamentals
2. Master tools (Photoshop, Illustrator, Figma)
3. Build portfolio
4. Do freelance or agency internships

3) Example Companies & Salary Range (approx):

Companies: Agencies, product companies, startups
Salary (approx): India: ■2.5–8 LPA. US: \$45k–\$90k

4) Recommended Courses / Learning Resources:

- Coursera: Graphic Design Specialization
- Udemy: Adobe tools courses

28. Accountant / Finance Executive — Non-IT - Finance

1) Skills (Technical & Soft):

Technical: Accounting principles, Excel, ERP basics
Soft: Accuracy, Ethics, Communication

2) Roadmap for freshers:

1. Learn accounting basics
2. Practice on ERP or accounting tools
3. Internship with accounting firms

3) Example Companies & Salary Range (approx):

Companies: Finance firms, accounting firms, corporate finance teams
Salary (approx): India: ■2.5–8 LPA. US: \$50k–\$90k

4) Recommended Courses / Learning Resources:

- Coursera: Accounting fundamentals
- edX: Finance basics

29. Operations Manager (Logistics/Operations) — Non-IT - Operations

1) Skills (Technical & Soft):

Technical: Process optimization, ERP basics, Data analysis basics
Soft: Organization, Leadership, Problem solving

2) Roadmap for freshers:

1. Understand operations basics
2. Work in operations roles/internships
3. Learn process improvement techniques (Lean/Six Sigma)

3) Example Companies & Salary Range (approx):

Companies: Logistics firms, e-commerce, manufacturing
Salary (approx): India: ₹3–12 LPA. US: \$60k–\$120k

4) Recommended Courses / Learning Resources:

- Coursera: Operations Management courses
- Udemy: Lean Six Sigma intro

30. Customer Success Manager — Non-IT/IT - Customer

1) Skills (Technical & Soft):

Technical: CRM tools, Product knowledge, Basic analytics
Soft: Customer empathy, Communication, Problem solving

2) Roadmap for freshers:

1. Understand product & customers
2. Gain support or onboarding experience
3. Move to success roles and build relationship skills

3) Example Companies & Salary Range (approx):

Companies: SaaS companies, product firms
Salary (approx): India: ₹4–15 LPA. US: \$60k–\$130k

4) Recommended Courses / Learning Resources:

- Coursera: Customer Success courses
- Udemy: Customer success & retention

31. Business Development Manager — Non-IT - Sales

1) Skills (Technical & Soft):

Technical: CRM tools, Market research basics, Sales analytics
Soft: Negotiation, Communication, Networking

2) Roadmap for freshers:

1. Learn sales fundamentals
2. Gain field or inside sales experience
3. Build industry connections
4. Move to BD roles

3) Example Companies & Salary Range (approx):

Companies: Product companies, startups, consultancies
Salary (approx): India: ₹3–15 LPA. US: \$60k–\$140k

4) Recommended Courses / Learning Resources:

- Coursera: Business Development & Sales courses
- LinkedIn Learning: Sales strategy
